TOPIC:RECIPE SOCIAL NETWORK

Recipe Social Network

Problem Statement:

People often find it difficult to discover, share, and organize recipes in one place. There is a need for a platform where users can share recipes, interact with other food enthusiasts, and learn new cooking ideas.

Tab 2

Objective:

- Create a platform for sharing recipes.
- Allow users to connect with other cooking enthusiasts.
- Enable users to like, comment, and save recipes.
- Build a user-friendly food community.

Scope:

- User registration and login.
- Recipe creation and sharing.
- Search and view recipes.
- Like, comment, and save recipes.
- User profile management.
- Social interaction among users

Tab 3

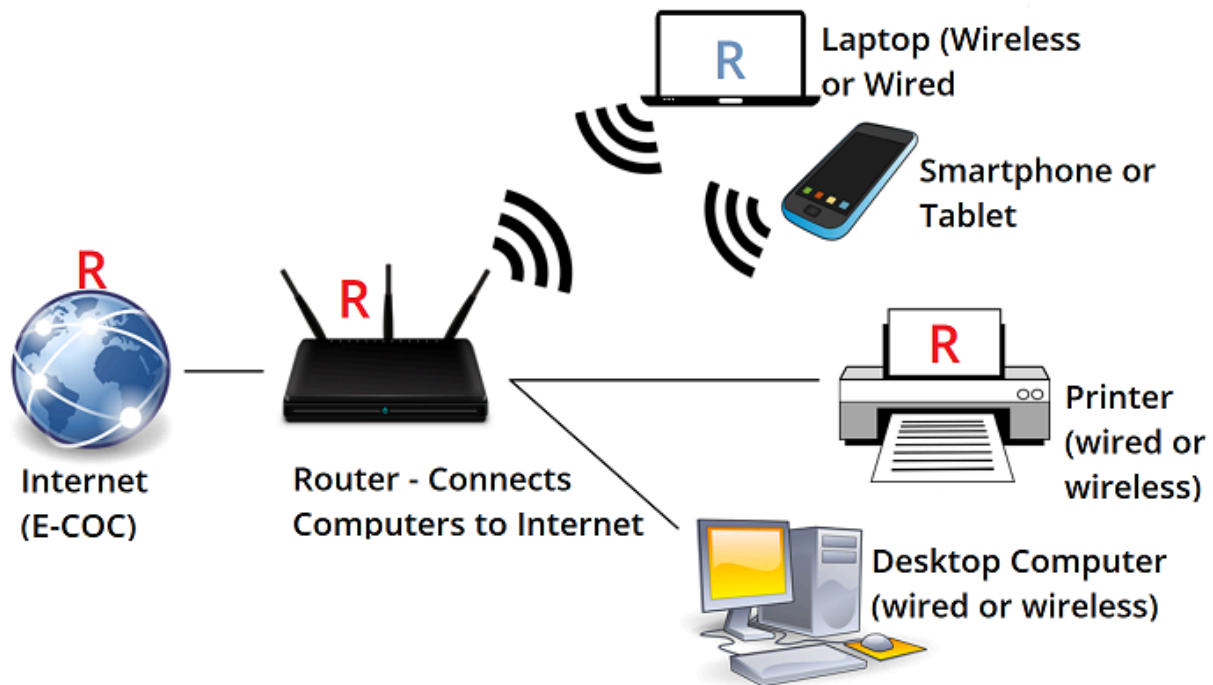

Requirements:

1. Hardware Requirements

- Processor: Intel core i3 or above
- RAM: 4 GB minimum
- Storage: 20 GB free space

2. Software Requirements

- Operating system: windows/linux
- Frontend: HTML, CSS, JavaScript
- Backend: Python (Flask) / Java / Node.js
- Database: MySQL
- IDE: VS Code
- Browser: Chrome

Tab 4

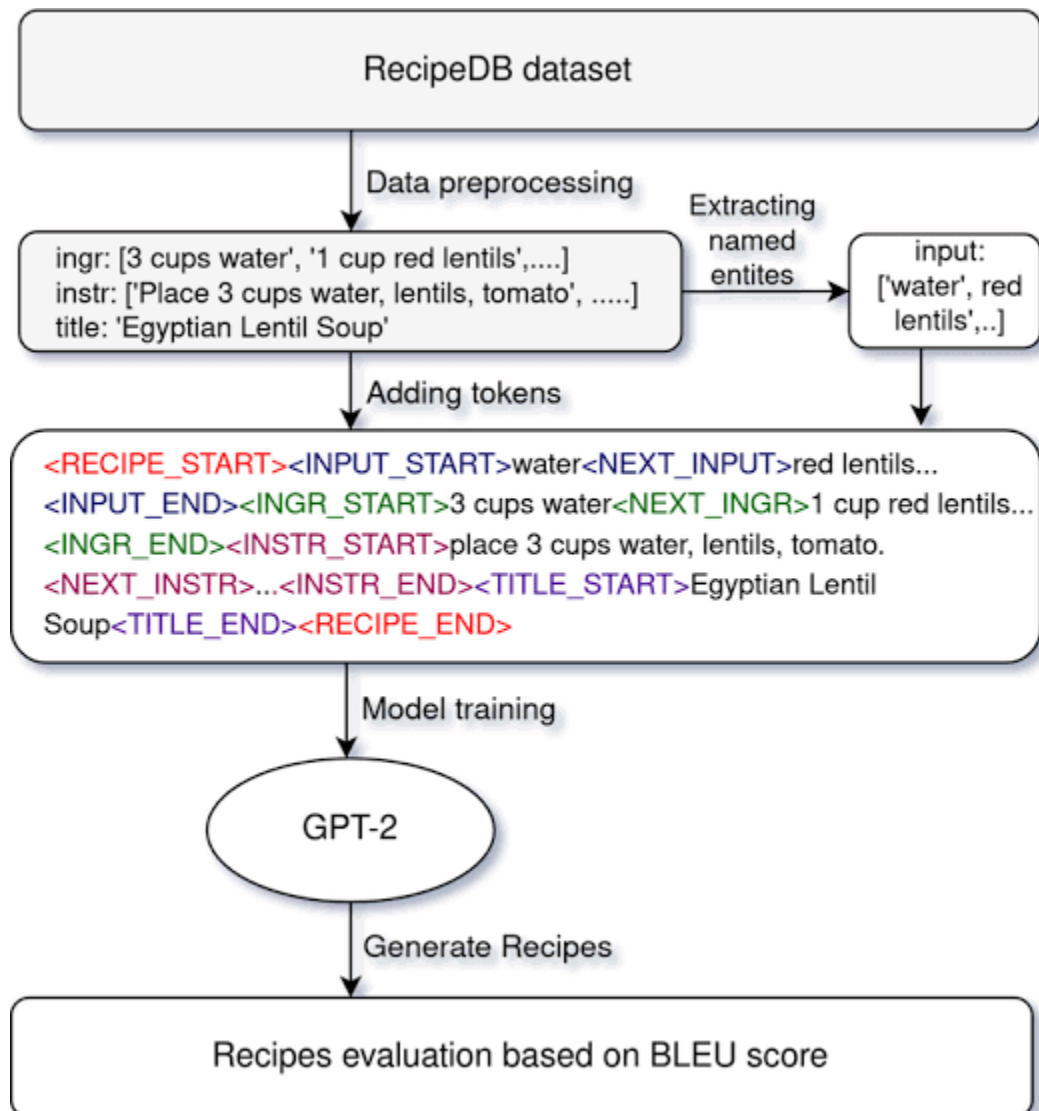

Design:

Modules

- User Authentication Module
- Profile Management Module
- Recipe Upload Module
- Recipe Search Module
- Like and Comment Module
- Saved Recipes Module

System Flow

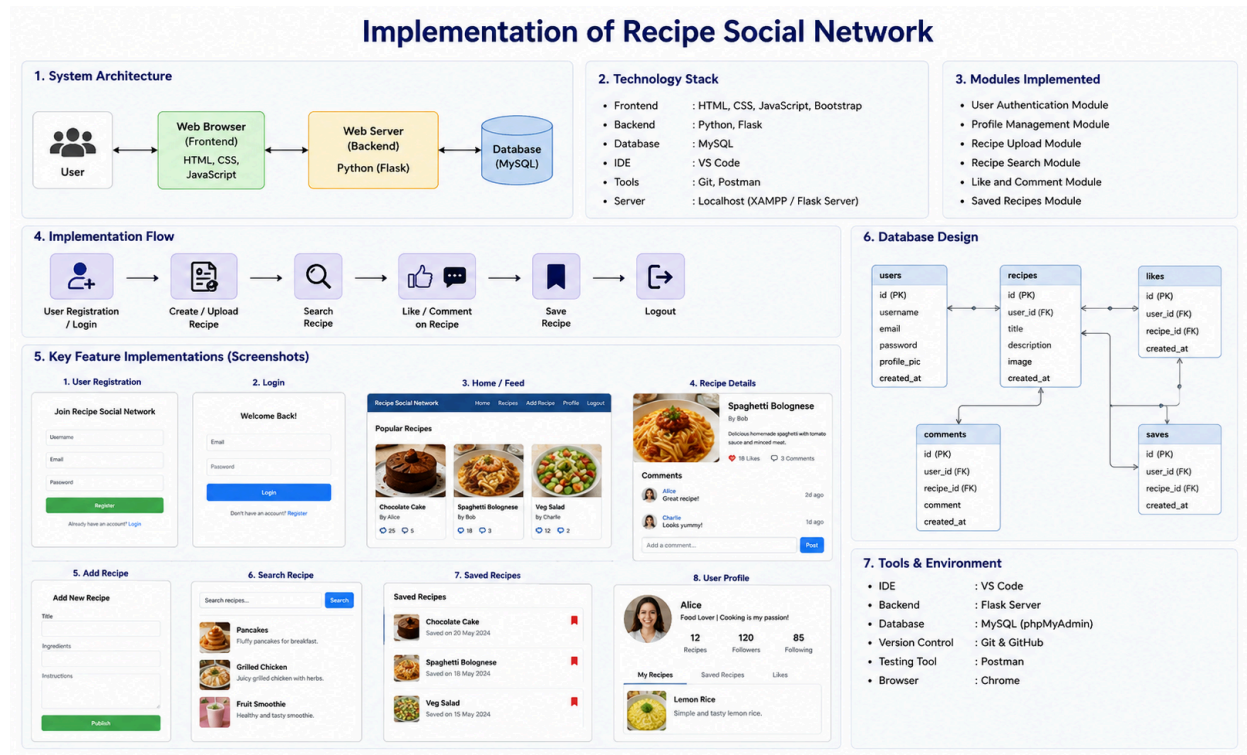

User Login → Create/View Recipe → Like/Comment → Save Recipe → Logout

Tab 5

Implementation:

- Developed user registration and login functionality.
- Implemented recipe posting and editing features.
- Integrated database for storing user and recipe information.
- Added search functionality for finding recipes.
- Implemented social features such as likes and comments.

Tab 6

Testing:

TESTING – RECIPE SOCIAL NETWORK						
Test Case ID	Module	Test Case Description	Test Steps	Expected Result	Actual Result	Status
TC001	User Registration	Verify new user registration	1. Open website 2. Click on Register 3. Enter valid details 4. Click Register	User should be registered successfully and redirected to login page	User registered successfully and redirected to login page	 Pass
TC002	User Login	Verify user login with valid credentials	1. Open website 2. Enter registered email 3. Enter password 4. Click Login	User should be logged in and redirected to home page	User logged in successfully and redirected to home page	 Pass
TC003	Recipe Upload	Verify recipe upload functionality	1. Login to account 2. Click on Add Recipe 3. Enter recipe details 4. Upload image 5. Click Publish	Recipe should be uploaded and visible in home feed	Recipe uploaded successfully and visible in home feed	 Pass
TC004	Recipe Search	Verify search functionality	1. Enter keyword in search box 2. Click Search	Relevant recipes should be displayed	Relevant recipes displayed successfully	 Pass
TC005	Like Recipe	Verify like/unlike functionality	1. Open any recipe 2. Click Like button 3. Click Like again to unlike	Like count should increase on like and decrease on unlike	Like count increased and decreased successfully	 Pass
TC006	Comment on Recipe	Verify comment functionality	1. Open any recipe 2. Enter comment 3. Click Post	Comment should be posted and visible under the recipe	Comment posted successfully and visible	 Pass
TC007	Save Recipe	Verify save/unsave recipe functionality	1. Open any recipe 2. Click Save icon 3. Click again to unsave	Recipe should be saved and removed on unsave	Recipe saved and removed from saved list successfully	 Pass
TC008	User Logout	Verify user logout	1. Click on Profile/Logout 2. Confirm Logout	User should be logged out and redirected to login page	User logged out successfully and redirected to login page	 Pass

Future Enhancements:

- AI-based recipe recommendations.
- Video recipe uploads.
- Multi-language support.
- Recipe rating system.
- Mobile application development.
- Nutrition and calorie tracking.
- Integration with social media platforms.

Tab 7

Program:

```
recipes = []

while True:
    print("\n--- Recipe Social Network ---")
    print("1. Add Recipe")
    print("2. View Recipes")
    print("3. Exit")

    choice = input("Enter your choice: ")

    if choice == '1':
        recipe_name = input("Enter Recipe Name: ")
        author = input("Enter Author Name: ")

        recipe = {
            "Recipe": recipe_name,
            "Author": author
        }

        recipes.append(recipe)
        print("Recipe Added Successfully!")

    elif choice == '2':
        print("\nAvailable Recipes:")
        for recipe in recipes:
            print("Recipe:", recipe["Recipe"])
            print("Author:", recipe["Author"])
            print("-----")

    elif choice == '3':
        print("Thank You for Using Recipe Social Network!")
        break

    else:
        print("Invalid Choice!")
```

Tab 8

Explanation:

This program simulates a simple Recipe Social Network.

Features:

1.Add Recipe

- Users can enter a recipe name and author name.
- The recipe is stored in a list.

2.View Recipes

- Displays all recipes added by users.

3.Exit

- Closes the application.

Concepts Used:

- List
- Dictionary
- Loop (while)
- Conditional Statements (if-elif-else)
- User Input (input())

Tab 9

Output:

-- Recipe Social Network ---

1. Add Recipe
2. View Recipes
3. Exit

Enter your choice: 1

Enter Recipe Name: Veg Biryani
Enter Author Name: Kavidharshni

Recipe Added Successfully!

--- Recipe Social Network ---

1. Add Recipe
2. View Recipes
3. Exit

Enter your choice: 2

Available Recipes:
Recipe: Veg Biryani
Author: Kavidharshni

--- Recipe Social Network ---

1. Add Recipe
2. View Recipes
3. Exit

Enter your choice: 3

Output Explanation:

- User selects Option 1 and adds a recipe named Veg Biryani.
- The recipe details are stored in the system.
- User selects Option 2 to view the stored recipe.
- The program displays the recipe name and author.
- User selects Option 3 to exit the application.

Tab 10

Results:

- Users can successfully register and log in.
- Recipes can be created, viewed, edited, and shared.
- Users can interact through likes and comments.
- Search functionality helps users find recipes quickly.

Conclusion:

The Recipe Social Network successfully provides a platform for users to share recipes and interact with other cooking enthusiasts. The system improves recipe di

Thank you!!!
